

POWER DEFINITION

PRP: Prime Power is required for continuous operation under variable load and infinite operating hours per year.

ESP: Standby power refers to the ability of the generator to operate at varying loads in the event of power outage, with an annual operating time of up to 200h.

STANDARD USAGE CONDITIONS:

- 1. Altitude: below 1000 meters;
- 2. Environmental temperature: 25 °C
- 3. Relative humidity: 30%

ABOUT NOISE:

The noise level of the generator largely depends on the installation conditions and usage environment, so it is not possible to specify the noise value in manual.

The noise value we provide is based on

QUALIFICATION STANDARD

IGNT POWER generator set complies with ISO and CE standards, which also include the following certification standards: ISO 1400:2015 Environmental System; ISO 45001:2018 Safty System; ISO 9001:2015 Quality System

| SERVICE | | PRP | ESP |
|-------------------|--------|---------|---------|
| Power | KVA | 181 | 200 |

Generator Specifications

Standard Configuration

- 50°C radiator for belt driven fan
- 12/24V charging alternator
- One set of air/fuel/oil fiters
- Chassis with integrated fuel tank
- Emergency stop button
- Anti-vibration shock absorbers
- Main circuit breaker/ MCCB
- Auto control s
- User manual

Optional Configuration

 Battery charger

 Engine pre-heater

 Alternator pre-heater

 PMG/ AREP/ MAUX

 Water-oil seperator

 Inside automatic transfer switch/ ATS box

 Grounding cooper rod

 Remote control system

 Switch box

Warranty of Generator Set

One year or 1000 running hours whichever comes first
