

ESP: Standby power refers to the ability of the generator to operate at varying

and infinite operating hours per year.

of the generator to operate at varying loads in the event of power outage, with an annual operating time of up to 200h.

STANDARD USAGE CONDITIONS:

1. Altitude: below 1000 meters;

2. Environmental temperature: 25 °C

3. Relative humidity: 30%

ABOUT NOISE:

The noise level of the generator largely depends on the installation conditions and usage environment, so it is not possible to specify the noise value in manual. The noise value we provide is based on laboratory testing and is for reference.

QUALIFICATION STANDARD

IGNT POWER generator set complies with ISO and CE standards, which also include the following certification standards:

ISO 1400:2015 Environmental System;

ISO 45001:2018 Safty System; ISO 9001:2015 Quality System
